

**Job Type** Clinical Scientist, Full Time

**Work Location** Basel, Switzerland

Anaveon is a clinical-stage immune-cytokine company with a non-alpha IL-2 agonist front runner ANV419. For our expanding and dynamic organization, we are looking for a **Clinical Scientist** who will help deliver cytokine driven therapeutic breakthroughs for patients.

The Clinical Scientist ensures Anaveon's patient centric approach to drug development to deliver a high standard for quality clinical results with scientific value to develop Anaveon's clinical development pipeline.

**Key Responsibilities include:**

**Clinical science:**

- Provides strategic clinical science support for ANAVEON studies and programs
- Collaborates with the CMO in the assessment of clinical programs to support the clinical and translational development plans
- Contributes to preparation of and participates in HA meetings, interacts with advisory boards and stakeholders
- Interacts with cooperative groups, vendors, key opinion leaders (KOLs) and patient advocacy groups
- Clinical review of study data, identifying and evaluating study data trends, outliers, protocol violations etc.
- Reviews and/or writes clinical science content for clinically owned documents (e.g. protocols, investigator brochures etc.). Contributes to clinical content to regulatory relevant documents (e.g. DSUR, briefing books etc).
- Works with relevant line function (clinical operations, safety science and data management) to develop relevant medical information (e.g. pharmacovigilance)
- Gathers and analyses data and information necessary for regulatory submissions, scientific publications, scientific presentations, investigator meetings, etc.
- Submits and presents data at scientific meetings
- Builds relationships and scientific outreach within the scientific community and patient organizations

**Qualification:**

- PhD, MD or PhD/MD degree in a relevant scientific field (e.g. oncology/hematology, cancer biology, molecular biology, immunology)
- Minimum of 5 years of experience in drug development or relevant area of expertise for clinically oriented science
- Major contributions to drug development milestones (PoC, PoM, IND filings)
- Be able to distill complex issues and clearly articulate clinical study results
- Genuine presentation and communication skills

Anaveon embraces diversity and equal opportunity. We are proud to offer competitive compensation packages and an inclusive workplace that cultivates innovation through collaboration and empowerment. Please send your application to [jobs@anaveon.com](mailto:jobs@anaveon.com)
